## SKILLS

### Product Design

I am adept in running through an iterative design process, from problem to product.

### Graphic Design

I have experience in designing for a wide array of graphical mediums in Adobe Illustrator, InDesign and Photoshop.

### Web Design

I have designed websites using several tools including wix.com, Adobe Muse and wordpress.org.

### Prototyping

I am confident in applying several different prototyping techniques, from low-fi prototypes to high fidelity interactive prototypes.

### Lighting Design

My expertise comes from my background as a theater light technician and several courses on the subject.
